

## The Right Mix of Quality and Service

Plaisted Companies is the largest, full-service athletic field supplier in the Midwest, earning our reputation as a leader through quality products and exceptional service. We are unique in that we own our own sand and peat supplies, allowing us to control product quality from processing and screening through to the final mix.

### Athletic Field Topdressings

Create a playing surface that provides compaction resistance plus an improved drainage and aeration state.

**Plaisted Athletic Field Topdressing Sand** spreads easily for regular maintenance. Peat or topsoil can be added to the mix. We can also custom blend a mix for your field conditions.

### Construction Sand and Aggregates

Proper drainage reduces field maintenance while optimizing the playing surface.

**Construction sands:** A coarser grade for firmer footing. Premixed for various applications.

**Drain tile materials:** Gravel, pea stone, or a custom mix based on the native soil conditions.

**Rootzone mixes:** A selection of screened sand and Minnesota harvested peat for optimum growth. We can custom blend a mix for your field conditions.

### Accublender™ Computerized Blending

Our patented **Accublender 4** ensures a precise soil blend that can be delivered wherever it is needed. The portable **Accublender 2** two-bin blender can produce up to 2,500 tons of material a day on your site.

# Creating Inviting Outdoor Environments

## CU-Structural Tree Soil®

Enhance your stadium surroundings. This patented\* soil mix enables trees to be planted in sidewalk areas. Its unique soil porosity matrix increases rooting volume under pavement, extends tree longevity, and prevents sidewalk heaving.

## Landscape Rock

Field stone: 2" to 24"  
Crushed granite: 6" to 24"  
Granite, limestone, quartz, river rock, slate  
trap rock: 3/4" to 2 1/2"  
*View colors online.*

**Plaisted technical services** includes soil testing and soil mix recommendations. We can blend any combination of materials to meet your project needs.

**Visit us online** for information on more than 300 products and a listing of our athletic field projects.

\*Plaisted Companies is a licensed producer of CU-Structural Soil, developed at Cornell University.

## Outdoor Hardscape Materials

Retaining wall systems  
Pavers and stepping stones  
Outdoor fireplaces and fire pits  
Erosion control fabric  
Edging fabric and supplies

## Horticultural Products

Colored and natural mulches  
Organic peat and soil amendments  
Pulverized black dirt  
Horticultural and garden mixes  
Rain garden and rooftop garden mixes

## Responsive and Reliable Delivery

Plaisted's experienced drivers operate a fleet of more than 40 trucks—capable of delivering one ton to 25 tons per load.

THE SOIL EXPERTS.
